Title: Definitely Understand the Hype

User: ryanpersaud-59415 — Nov 14, 2021

The Good:

Back in 2013, Frozen became a bona fide phenomenon, on the level that I honestly can't recall for an animated movie. Watching this 8 years later as a grown adult, I can say that I totally understand why this movie became a phenomenon.

Frozen has three big things going for it: the songs, the characters, and the interesting subversion of tropes. I personally don't *love* all of them, but the musical numbers give the movie a bouncy, fun vibe. The characters are lovable and well written; it's hard not to like someone here, if not the entire roster.

The Bad:

I don't think the movie does a great job with establishing the central conflict. Despite the first portion of the movie covering it, by the time the story gets into it, I just didn't buy the relationship between Anna and Elsa until the halfway mark. Anna's motivations are quite poor and while I get that we wouldn't have a movie without this conflict, it could have been communicated with more patience.

I also felt the environment lacked a real presence; Arendelle gave me “Asgard” vibes—devoid of people, moved on from too fast, not a living world. Maybe it's the cold setting, but I prefer fantasy worlds that feel full of life.

The Ugly:

Yeah, it's good. I still think *Let It Go* is a bit overrated and I've seen better-looking animated films, but Frozen is solid and fun for the whole family.

Title: Some People take things WAY too seriously!

User: calgal84 — Aug 10, 2014

This is really a lovely, enjoyable cartoon. And it's just that — a lovely, enjoyable cartoon. A fairy tale moms and dads can feel happy taking their kids to.

Is there anything truly remarkable about it? Probably not. Are the songs particularly inventive compared to other Disney movies? No, but they are catchy and pretty. The “In Summer” song is cute, if a bit oddly placed.

Some reviewers take this movie way too seriously. Giving it one star because others gave it a 10 doesn't make you smarter — it just shows you're taking a cartoon too seriously. It's not real. It's a fairy tale.

I give it an 8. Not perfect, but enjoyable.

Frozen is a heartwarming movie with fantastic animation. Elsa, Anna, and Olaf make it fun to watch. I've seen it several times with my kids and they still think it's a good movie.

Title: Very Unique

A great film that fits in the category of The Lion King, Aladdin, Tarzan, Snow White, Pocahontas, and The Little Mermaid. I love the Norwegian cultural influences. Fantastic story, beautiful animation — a true Disney classic.

Title: The directorial

User: ildarabsalamov — Jan 19, 2022

The directorial duo managed to make another Disney animated film into an event. They balanced responsibilities well, developing a simple story through characters, music, humor, and the emotional signature that defines Disney projects.

The script—loosely based on Andersen's fairy tale—quickly transforms into something unique. The writers keep only the dramatic foundation and rebuild everything else. Disney's strength has always been less about plots and more about crafting characters and balancing sad and funny moments.

Most Disney movies follow a similar storyline, but this one feels more mature and complex. It's about self-love and self-discovery. It made me shed a tear, and I rewatch it every year with the same chills.

Title: I like warm hugs too

Story of two princesses: Elsa, who becomes queen but struggles with her snow powers, and Anna, the goofy, lovable younger sister. After an argument in which Elsa reveals her powers publicly, she runs away. Anna sets out to bring her back.

Frozen is good but not great. It's very loosely adapted from "The Snow Queen." The sisterly bond is touching but not deeply developed. Most of the middle focuses on other characters.

It reuses familiar Disney tropes and rom-com clichés, though effectively. Olaf, the snowman, is entertaining but feels tacked on. The music is "OK" but a bit too Broadway. The animation and voice work are solid. Kids and young women may enjoy it more.
